

F 92A

Forward vibratory plate

For compaction of sand, gravel, rock fill, asphalt and paving stones.

All our machine models are versatile and easy to operate. They are also durable and reliable, which imply low maintenance costs.

- The Swepac F 92A is an ideal, high performance all-round vibratory plate equipped with an 11 liter watertank.
- The watertank can easily be removed without any tools. Adjustable flow of water.
- With a Vulkollan® plate (accessory) attached to the baseplate paved areas can be compacted efficiently for an even surface.
- Devibrated and ergonomic handle with low hand-arm-vibration levels.
- The F 92A can cope with the toughest of jobs since parts of the engine and transmission are protected by a cover.
- The chassis and handlebar are galvanized providing a superior corrosion protection and maintenance-free life.
- The excentric element has permanently lubricated bearings that are maintenance free.
- The handlebar can easily be removed without any tools, for instance, during transportation.
