

# RDH 760

## DOUBLE DRUM VIBRATORY ROLLER

Built-in-hydraulic oil cooler for hot conditions reduces maintenance cost.

Fully Hydraulic (Both Drive and Vibration) suitable for tough and hot condition, reduces maintenance cost.

### For compaction of soil and asphalt.

All our machine models are versatile and easy to operate. They are also durable and reliable meaning lower operating and maintenance costs.

- The Swepac RDH 760 is an easy to maneuver hand-guided double drum roller for soil and asphalt applications. It complements our range of vibratory plates and is suitable for pavements, bicycle paths, yards and playgrounds.
- The roller is easy to start and is available with both mechanical and electric start. It has a reliable Hatz diesel engine with a fully hydraulic system with built-in-hydraulic oil cooler for hot conditions reduces maintenance cost drastically. The hydraulic system is well protected under the water tank. A mechanical parking brake ensures safe parking.
- For safety reasons it has a deadman's push-stop and the levers for speed, direction and vibration are ergonomically placed in the handle.
- The dual drums are smooth with no sharp edges on the corners to prevent marks in asphalt or soil. Efficient scrapers on both drums keep them clean from sticking asphalt.
- The RDH 760 has a large 65 liter water tank made of strong plastic material. The tank is easy to remove whenever it's not needed.
- The machine is easy to use and has a minimum of overhang offering free space from obstacle and walls, convenient in confined spaces such as yards and drive ways.
- Service and maintenance is simplified by a foldable protection frame which gives free space to vital components.
- The Swepac RDH 760 is easy to transport with a strong lifting device in the middle of the roller.

#### TECHNICAL DATA – SWEPAC RDH 760

Operating weight, max	756 kg
Operating weight	735 kg
Weight, net	700 kg
Working width	650 mm
Drum diameter	404 mm
Static linear force	54 N/c
Centrifugal force	21 kN
Frequency	3300 Vpm (55 Hz)
Engine	Hatz 1B40

#### TECHNICAL DATA – SWEPAC RDH 760

Engine output	7.5 kW (10.2 hp)
Fuel	Diesel
Travel speed	0–3.6 km/h
Water tank capacity	65 l
Hydraulic fluid type	ISO VG46
Hydraulic fluid capacity	14 l
Guaranteed sound-power level, LwA	108 dB(A)
Vibration specification, for hand/arm	5.0 m/s <sup>2</sup>

Swepac is Sweden's leading manufacturer of soil compactors. The company has a wide range of products, with different motor options and a variety of sizes for every application. Swepac is certified for quality and environmental management under ISO 9001 and 14001, and our machines are Eurotest-certified by SMP Swedish Machinery Testing Institute. You will find detailed information about the company and our products on our website, [www.swepac.com](http://www.swepac.com). We reserve the right to make changes in technical specifications without prior notice.
